Syed completed his BDS in India in 2004 and moved to the UK in 2005. He completed the International Qualifying Examination in 2006. Following this he worked as a general dental practitioner. He was also a clinical observer in the Department of Oral and Maxillofacial Surgery at Guys Hospital in London in 2006. Syed has keen interest in dental implants and has completed his MSc in Dental Implantology from University of Manchester in 2011.

He has successfully treated patients with dental implants ranging from single tooth replacements to full arch restorations with a very high success rate. Syed works with real dedication to provide excellent professional care and strives to deliver an exceptional experience for all his patients.

Syed has a keen interest in motor sports. He also loves spending his spare time with his family and friends.
