

PRACTICAL IMPLANT DENTISTRY

GUIDED STEP TO SUCCESS

Implants in General Dental Practice

Are you ready to take the first step into the world of dental implants?

Designed for dentists, this course serves as a gateway into implant dentistry, offering a hands-on introduction and demonstrating how implants can be the key to unlocking comprehensive treatment planning in everyday practice.

This hands-on course focuses on the core pillars of predictable implant success:

- **Treatment Planning** – Case selection, risk assessment, and structured, predictable workflows
- **Implant Placement** – Fundamental surgical principles with an emphasis on **predictable guided placement**
- **Implant Restoration** – Seamless **digital workflow** from planning to final restorations
- **Communication & Team Integration** – Confident patient consent, expectation management, and building a high-performing implant team

Ideal for clinicians new to implants or those refining their approach, the course emphasises:

- **Simplicity and predictability** through guided implant protocols
- The role of implants in **comprehensive treatment planning**
- Driving **practice growth** through confident implant delivery

Dr Mehdi Yazdi

BDS, MJDF RCS, DipDSed, MSc Implant Dentistry
PGCert Restorative PGCert Periodontics

Dr Mehdi Yazdi is an experienced implant dentist, educator and mentor with a strong focus on clinical excellence and postgraduate training.

He graduated with a BDS from the University of Sheffield in 2007 and has since completed an MSc in Implant Dentistry alongside postgraduate qualifications in sedation, restorative dentistry and periodontics.

Recognised as a Dentist with a Special Interest in Oral Surgery and the owner of multiple award-winning practices, he combines advanced surgical and restorative expertise to deliver predictable, high-quality implant outcomes.

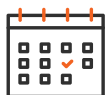

Passionate about teaching, Mehdi mentors clinicians in developing confidence and competence in implant dentistry.

He uses a calm, supportive and patient-centred approach, drawing on extensive clinical and hospital-based teaching experience to help accelerate their professional growth.
